 Rev. George H. Thayer, an old citizen of this vicinity, known to every one as a most influential citizen, and Christian Minister of the M. E. Church just this moment stopped in our store to say, "I wish everybody to know that I consider that both myself and wife owe our lives to Shiloh's Consumption Cure." HYPOCHONDRIASIS.
 Is a affliction to suffer from. It attacks all stations and conditions of life. There is a constant dread of impending danger, the Damocles sword of an imaginary evil is suspended over a morbid sensitiveness as to the thoughts and actions of others, &c. This disease generally arises from an affection of the liver, stomach, urinary organs, &c., and can be successfully combated by the aid of rest and light diet, and the use of a remedy which will restore new force, promote secretions and excretions, and give tone to the whole system. Such a health restoring remedy has been found in the Home Stomach Bitters.

GREEN'S AUGUST FLOWER.
 It is natural for people suffering from Dyspepsia and Liver Complaint or any derangement of the digestive organs, such as Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heart burn, Water-brash, gnawing and burning pains at the pit of the stomach, Yellow Skin, Coated Tongue, and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c., to put off from day to day buying an article that they know has cured their neighbor, friend, or relative, yet they have no faith in it until it is too late. But if you will go to your druggist, R. B. Stevenson or Jno. W. Scott, and get a bottle of GREEN'S AUGUST FLOWER your immediate cure is as certain as you live. Sample bottle of this medicine can be obtained for 10 cents to try its superior virtue. Regular size 75 cents. Try it, two doses will relieve any case.

 Farmers should save their biggest pumpkins to take to the District Fair. The President will be there and several other distinguished persons.
 The editors of the Neosho Valley organized an association at Humboldt yesterday. Sorry we could not attend, but business demanded our attention at home.

The camp grounds at Humboldt are in complete order, and are looking splendid. Boating, water, and everything necessary for comfort and convenience on the grounds.
 Our subscribers in the county are requested to send us the names of their neighbors who are not taking THE REGISTER. We will mail them specimen copies at any time.

 New Fall hats at the Ladies' Bazaar.
 And now the candidates go round and round.
 John Brown has been quite sick this week.
 Farmers are "making hay while the sun shines."

 John Brown has been quite sick this week.
 Farmers are "making hay while the sun shines."

D. R. Hovey, not unknown in Iola, died at Wichita last week.
 There will be something nice in the way of an entertainment in this town soon.
 Mr. Clothier, living near Fairlawn, brought us a fine sample of sorghum the other day. He keeps it for sale all the time.
 Mr. J. P. Vancol left us a very fine specimen of egg plant Monday last. It is a new variety—which he is introducing here—and the one he left us was the largest we have ever run across.

A long-felt want is filled at last. By calling on J. Higby & Co., our citizens can get their lumber and other building material at prices which leave no excuse for going to adjoining towns for the same.
 A general meeting conducted by Rev. W. F. Shockey will be held at the Glendale school house, commencing Sept. 1st and continue over the 4th, for the purpose of organizing a Universalist association. All lovers of the truth are invited.
 Hon. J. R. Halliwell, attorney general for this State, was in town Tuesday evening. He was compelled to go on to the northern part of the State, and could not stop over to the settlers' meeting.
 Chollett's lumber yard has a new sign. If anyone has put out a new sign and we have overlooked it, we will, on an honorable basis, will sell our attention to the matter. Nice signs are nice things.

Hon. Alfred Taylor, candidate for Lieutenant Governor on the Greenback ticket last fall, was in town Saturday. He had been attending a greenback convention in Labette county last week and was on his way home.
 As THE REGISTER went to press last night, Hon. D. C. Haskell was making a political speech at the court house to a large audience. The "extra session" was given a fair show. Mr. Haskell's speech deserved careful attention, as it struck the key note of the situation.
 Eli Perkins, of Brooklyn, who has lectured on temperance for twenty years in this country and Europe, will be at the Humboldt camp meeting Saturday and Sunday next. He gives special lectures Sunday afternoon. He excelled all others at Bismarck Grove.

Now that our farmers are finding a ready sale for their corn and wheat, we would ask those whose accounts have been running any great length of time to call and settle all or part. A small amount from a good many would help us materially. Does this mean you?
 Stevenson is selling harvest oils and paints cheaper than was ever known before. Black Lubricating oil, 25 cents per gallon; castor oil, \$1.00 per gallon; lard oil, 75 cents per gallon; white lead \$5.50 per hundred pounds. Still better prices will be given if the markets afford it.
 Farmers and others who are in want of lumber at reasonable prices are advised to call on Higby & Co., at their new lumber yard near the south-west corner of the public square, Iola, Kansas, where they will be shown the finest and best stock of lumber ever offered in this market.

We see an item in the Leavenworth Times to the effect that the Chanute chess club had beaten the Iola club in two games of chess. This is a mistake. The Iola club has played and won with the Chanute club; and we believe the Iola club claims that no chess club in the State can beat them.
 The annual camp meeting of the M. E. church for the Emporia District commenced at Humboldt Wednesday. Distinguished speakers from abroad were expected, among whom was mentioned, Bishop Bowman, Chaplain McCabe and Philip Phillips, the sweet singer. There will be a large attendance from near Iola.

Sheriff Smith of Woodson county brought over his lodge, under Sheriff Hodgson's hospitable charge, one F. A. Johnson, a supposed horse thief, Wednesday last. A man named Peterson living near Bramlett lost a horse last Friday night and Johnson disappeared at the same time. Sheriff Smith found him in hiding a few miles south-west of Iola, and took him in charge. His examination will take place at Yates Center.
 The chances for his conviction, we understand are tolerably sure. He has employed Alderman & Simpson, of Iola, to defend him.

Settlers' Meeting.
 The late hour yesterday afternoon at which the settlers' picnic was closed, precludes any extended notice this week. As a social meeting it was a success. The absence of some of the speakers interfered with the published programme, but as that could not be helped, everyone went to work to have a good time—and did so. Mr. Haskell's speech was timely and clear. We will have more to say next week, probably.

LOSSMAN JOS.

The Luse Trial.
 At two o'clock Thursday last the preliminary examination of D. O. Luse, charged with horse stealing, was commenced before Jno. Faxon, Justice of Iola township.
 The State was represented by County Attorney W. H. Shavano, L. W. Kephling, J. R. Goodin, J. H. Richards and Alderman & Simpson. The defense is represented by S. S. Kirkpatrick, J. C. Murray, H. D. Smith and W. G. McDonald.
 Luse was brought into the court room and placed in an easy chair. He seemed to be in a very weak condition. The State opened the case by examining Mr. E. Stromider, of Humboldt, the owner of the stolen mare and colt. Mose Coy who was brought over from Ft. Scott and Henry Ames was next examined.
 The theory of the prosecution seems to be to prove that Coy and Ames were tools of Luse, not only in the case at bar, but also in other thefts.
 Every inch is contested by the attorneys of each side, not a point being overlooked. The case drags from the fact that each particle of evidence is being fought, long arguments being made by the attorneys. Notwithstanding this the court house is filled each day by interested spectators. The feeling in regard to the matter is very bitter in the southern part of the county, and it also extends somewhat all over the county.
 Court was adjourned Saturday noon and commenced again Monday at 2 o'clock p. m.
 The prosecution finished their evidence yesterday, and as we go to press the defense are opening their side. The examination will conclude this week probably.

Depot Sketches.
 Sauntering down to the depot Monday in search of that joy to the average reporter, we first stopped to see our friend White, of lumber fame. Teams were waiting to load, so after a short greeting we left, first noticing the completion of his neat office and the stock of lumber, shingles &c. He has something to say in THE REGISTER this week that will interest those waiting lumber. Just opposite the depot we noticed a large number of walnut logs, some bawn others in the rough, and a large force at work upon them. Two car loads have already been shipped and others will follow as soon as they can be put in condition. Elsewhere we mention this new industry.
 Stopping at Thayer & Benedict's elevator and mill we found them ready to grind corn meal and Graham flour. In conversation we learned that they were intending to keep steam mill flour of the best grades to exchange for wheat. They also want all the white corn for grinding that can be had. They will also be prepared to mill and ship as soon as it is enough to do so safely.
 A. W. Beck, we learn, has bought the old elevator and will move it down adjoining Thayer & Benedict. He will also buy and ship all kinds of grain.
 At the depot office we found our ever genial friend Ayres. He reports shipments good and receipts of lumber improving. During August forty-seven cars of cattle were shipped, several cars each of wheat and logs, and a few of hogs.
 Mr. Coutant has been and is now receiving car load after car load of lumber.
 Mr. J. N. Holt has shipped over a thousand head of stock cattle during the past few weeks.
 If it is the depot of the K. O. L. & S. Railroad is a busy and interesting place just now. Finally, travel is large and constantly increasing.

Marmaton Items.
 It is a lamentable fact that the inhabitants of this delightful valley now go about with sad and dejected faces. The mighty city with all its glories has vanished. The originators have fled to the tents like the Arabs and silently stole away.
 I find by reading THE REGISTER that the same objections have been raised to the proposed Marmaton fair as were raised here in regard to the Independent. The accusation of atheism was first advanced in this vicinity by a book agent. No doubt the objections to Appletons are traceable to the same source. S. has ably defended the latter series and we know the accusation to be unjust in regard to the former. A lay competitor would be considered mad by intelligent people to attempt to promulgate false theories in a book calculated to be introduced into the schools of various religious sects differing so widely as in the United States.
 Mabel Keith, a little daughter of C. P. Keith, approved, occupied drowning last week. She fell into her uncle's well and sank. As she rose to the surface of the water her aunt and sister grasped her clothing and so rescued her.
 Messrs. Collett and Fellison have the largest and best melons in the neighborhood, and what is better still, are very liberal with them.
 A sister of William and Amos Paake, from Ft. Scott, is visiting her relatives here.
 Mr. McGlashan's millet has been cut. Several stalks measured six and seven feet in height.
 We understand that Dr. Strong's daughters, who have been absent nearly a year, teaching and visiting in Illinois are expected home in October.
 We have been told that Miss Carrie Strong is expecting to leave us for the purpose of attending school in Iola.
 There seems to be a great attraction on the hill. C. N. takes his accustomed visit every Sabbath—from force of habit, I suspect.
 When it was raining so hard the other day little Harry F. made the remark that "If it was God he wouldn't let it rain so much." When asked what he would do he said "I'd get up in the morning and put the damper on and shut it off."
